Burns Drive - It is proposed to install some double yellow lines at the junction of Burns Drive and Shakespeare Avenue, extending along the south-eastern side of Burns Drive while adding a further short length of double yellow lines on the north-western side of that road.

Sheffield Road - Parking currently takes place on the north-eastern side of the B6057 Sheffield Road, Dronfield, in the vicinity of its junction with Snape Hill Lane, adjacent to the pedestrian zebra crossing. This obstructs visibility both of and for pedestrians wishing to cross Sheffield Road in a south-westerly direction. It is

(Chairmans Initials

proposed to implement a length of double yellow lines to prevent vehicles from parking at this location and thus protect visibility at the pedestrian crossing.

Smithy Croft - The junction of Smithy Croft with Longcroft Road is subject to onstreet parking in the vicinity of the junction. This is particularly significant during school peak periods. It is therefore proposed to install some double yellow lines at this junction. The required Traffic Regulation Order (TRO) will include the existing advisory school keep clear marking which will allow enforcement to take place. The school zig-zag markings will be operational Monday – Friday between 8am and 4pm.

Hallowes Lane - The junction of Hallowes Lane with Hallowes Drive, Dronfield, is subject to on-street parking in the vicinity of the junction which is exacerbated by customers attending the adjacent Golf Club. It is therefore proposed to install some double yellow lines at this junction.

Hallowes Rise - The junction of Hallowes Rise with Highgate Drive is located on a rising gradient. This results in significantly restricted visibility for vehicles exiting Highgate Drive, exacerbated by on-street parking in the vicinity of the junction. It is therefore proposed to install some double yellow lines at this junction.

Callywhite Lane – Various locations.
